

Alimentatore LED multicorrente DALI & Push

- Alimentatore indipendente - IP20 - Classe II di isolamento
- Uscita in corrente costante 250÷1000mA, ±5% programmabile con DIP-switches (vedi schema)
- Ingresso DALI o Pulsante sul lato primario con possibilità di sincronizzazione con altri alimentatori
- Protezione autoripristinante contro le sovratemperature, contro il circuito aperto ed i corto-circuiti sul secondario.
- Alimentazione: 100V ÷ 250V/AC - Uscita stabilizzata

Multicurrent LED Driver DALI & Push

- Driver for independent mounting - IP20 - Insulation class II
- Output in steady current: 250÷1000 mA, ± 5% settable by DIP-Switches (see scheme)
- DALI or Push-Button input on the primary side with possibility of synchro of more drivers together
- Self-resetting protection against overtemperatures, open circuit and against output short circuits
- Input voltage: 100V ÷ 250V/AC - Steady output

Multicurrent LED-Treiber DALI & Push

- Unabhängiger Treiber IP20 Isolationsklasse II
- Ausgang in Konstantstrom 250÷1000 mA, ±5% mit DIP-Switches (Sehen Schema)
- DALI oder Tastereingang auf der Primärseite mit möglicher Synchro von mehreren LED-Treibern

- Schutz gegen Hochtemperaturen, gegen ungeschlossenen Stromkreis und Kurzschlüsse auf der Sekundärseite (Wiederherstellung automatisch)
- Speisung: 100V ÷ 250V/AC - Stabilisierte Ausgang

Alimentation LED courant multiple DALI & Push

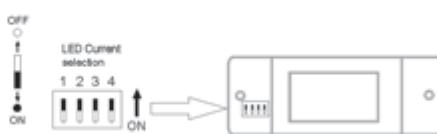

- Alimentation indépendante - IP20 - Classe II d'isolation - SELV
- Sortie en courant constant 250÷1000mA, ±5% programmable avec DIP-Switch (cf schéma)
- Entrée DALI ou bouton-poussoir sur le côté primaire avec possibilité de synchronisation avec d'autres appareils
- Protection à rétablissement automatique contre les surchauffes, contre le circuit ouvert et les courts-circuits sur le secondaire
- Alimentation: 100V ÷ 250V/AC - Sortie stabilisée

Controlador (Driver) Led multicorriente con DALI y pulsador

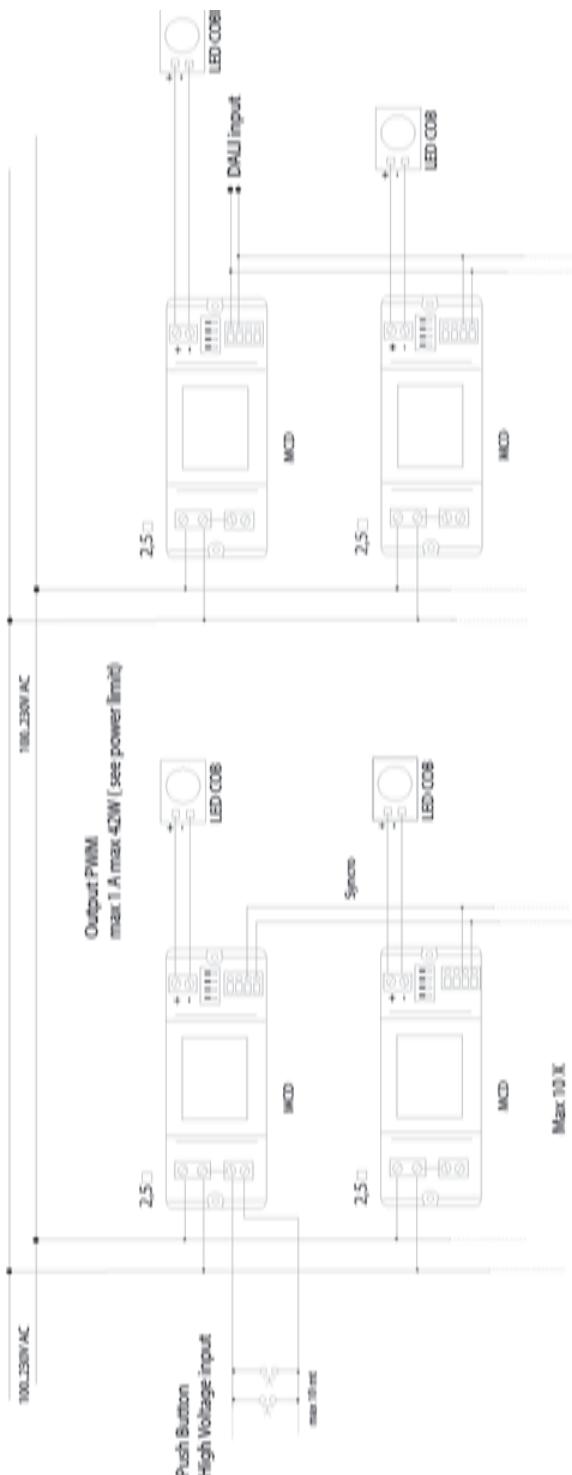

- Convertidor independiente - IP20 - Clase II - SELV
- Salida de corriente constante 250÷1000mA, ±5% programable con DIP-SWITCH (ver diagrama)
- Entradas DALI o Pulsador en el primario con la posibilidad de sincronización de más controladores.
- Protección con restablecimiento automático contra los sobrecalentamientos, contra el circuito abierto y los cortocircuitos en secundario
- Tensión de entrada: 100V ÷ 250V/AC - Salida constante
